

# How to Connect with God The Easy Way

by Etienne Charland, written in October 2019

Book is free to read and distribute, but you may not alter or copy its content without authorization.

As a starseed or lightworker, your main goal is to get closer to God. There are many ways of doing so: reading scriptures, reciting mantras, meditating for 10 years, etc. In this book, **I will explain a simple process to directly increase your connection to God** right away. You may or may not be able to do it on your own without support. We also offer the God Connection Attunement service where I'll use my own power to complete the connection process very quickly.

You can purchase the attunement here. It's a "set it and forget it" service where I do the work so you don't really need to know much about it. My work is primarily focused on direct coaching, yet this service allows you get a quick jump-start before diving deeper.

In this book, I will explain the process, provide information related to it, and answer a few questions.

## What Is God?

I always say: **"There is only one God, but there can be many gods."**

In other words, there is only one source of everything: God, with a capital G. It's not a guy sitting in the sky judging you, it is a set of laws that govern the Universe. Then, there can be many gods, or demi-gods, with a lowercase 'g'. These are highly advanced souls that have a close connection to God themselves. There can be entire advanced civilizations of those demi-gods.

**Note that we live in a primarily Luciferian society**, and as a result, the belief that we are God, or that there isn't one God but many, is very common and pushed onto us.

Someone once said to me: "If you're going to talk about God, you must define what you mean by it, because everybody has a different idea about it." This is absolutely terrible advice. God cannot be defined. Whenever you define it, you create a man-made God and establish an intellectual connection to it. When you stop trying to define or understand it, then you can simply connect into it. It is a way of being, not a way of understanding.

I used to define God as the set of laws that govern the Universe, such as the law of gravity, the law of karma and the law of purpose. However, by doing so, you can get to a point where you perfectly mimic those laws and act in alignment with God without actually having much connection to it. **This results in doing all the right things and struggling to get the results.** No more of that.

## What Is this Connection to God?

When it comes to your connection and alignment with God, there are a few specific aspects to look at: connection to God, core intent, alignment of actions and alignment of being. These aspects are loosely related but don't always follow each other.

**Connection to God** is the connection to Source itself. **Core intent** is how it translates into action. **Alignment of actions** is how aligned your actions are with the flow of creation (active spirituality). **Alignment of being** is how aligned your state is with the harmony of God (passive spirituality).

For example, I went to a resort in the mountains in Northern Thailand. Connection to God is 100%. Core intent vibrates at 600 on the Hawkins scale: peace. Alignment of actions is 13.2% and alignment of being is 13.6%. The intent of the resort is not Enlightenment but peace, nothing more.

Another example. In ancient Egypt, the people had on average 76.4% alignment of actions with God, 32.8% alignment of being with God, average core intent of only 14, and only 12.6% connection to God. The spiritual knowledge was so abused and disbalanced, it's no surprise that it got destroyed.

In 2019, people in the USA have on average 2.8% connection to God. The “conscious” community in the USA has on average 3.2% connection to God, core intent of 18, 1.7% alignment of actions with God, and 1.2% alignment of being with God. 92% of energy workers operate from the Luciferian doctrine in the US.

How did I come up with these numbers? [You can measure and validate them with kinesiology using this technique.](#)

I'm measuring 99.99976% accuracy on the above numbers as of writing this.

You can also join the [P2P Kinesiology Readings group](#) where many clients are doing readings for each other and comparing their results.

## **What Are the God Connection Benefits?**

As of writing this, I'm detecting between 500 and 600 people on the planet who have a connection to God above 60% since at least 3 years. **All of them are wealthy and successful.** In fact, it seems nearly half of them own a resort!?

For the most part, most people within a country or region have the same level of connection to God, whereas people from a different country will be at a different level,

with just a few exceptions sticking out of the pack. In the USA, 92% of the population has between 2.6% and 3.2% connection. In Mexico, 95% of the population has below 0.5% connection. In Thailand, before my recent activations, 80% of the population was between 3.5% and 4.5%. Monks in Thailand have on average 4.4% connection to God, whereas Daoist masters in China have on average 2.2% connection to God.

What I've observed so far on this God connection: **it is highly dependent on the environment, and it is also highly contagious.** As I increased it for myself from 35% to 100%, many people following me went from ~3.2% to 20-40%. However, it went back down for them after a few weeks.

When my connection goes down, I feel a lot of clutter, attacks and conflicts. When my connection is at 100%, everything flows a lot smoother.

**Thus, I will say that the connection to God is one of the primary factors for success both spiritually and in the material world, and because of its highly contagious nature and large area of effect, it is extremely powerful for healing on all levels, both for yourself and for others.**

## Connection to God Meditation

Now let's get to the meat of it. Here is an Inner Alchemy (Royal Alchemy path) meditation to increase your connection to God. Royal Alchemy is traditionally an oral tradition for a reason, so if you are unable to complete the process on your own, we have a support coach available to do the Royal Alchemy work with you, to complete not only this specific meditation but a lot more to achieve your goals.

[Apply here for a Strategy Session to get a support coach](#)

Your energetic body contains a whole series of inner buildings that represent various aspects of your life. We can call it the Inner City. There is a building for health, for personal power, for clairvoyance, for relationships, for finances, for projects, for communications, etc.

**For all of the Royal Alchemy meditations**, you will start by closing your eyes and visualizing a tree and a river. The tree represents your unique essence and the river represents the universal flow of energy. If the water in the river in front of you flows from right to left, you are at the right place, otherwise go to the other side of the river where you will see another tree, then rotate the image and it should now flow from right to left. Once it flows from right to left, go behind the tree so that both the tree and the river are behind you, ask the tree the permission to do this meditation, and ask it to connect you to the plane of stillness beyond time and space.

The plane of stillness vibrates with the teal color, or light blue. Ask for the right color and frequency of the plane of stillness to soak into your mind and consciousness.

**Then, ask the tree to bring you to the Temple of the Soul**, located between the solar plexus and the heart. This inner building is responsible for your connection to God. See what the building looks like. Since we live in a Luciferian society that is designed to trim God out of everything, for many people, this building has been wiped out entirely.

Ask the tree at what % is the building there. Use the teal flame to restore the building, and you can ask for archangels or your starseed family to come and help you with this process.

Once the building is in good shape externally, go inside. There should be 3 managers around an altar. Visualize a dark blue screen and ask each manager to pass through the dark blue screen. If they are pure, they will be able to pass, otherwise they won't pass. If they don't pass, throw crystal balls to disintegrate them, and use the violet flame to ask for the right managers to come. Repeat the process until you have 3 good managers. You can also ask how many guardians you need and use the violet flame to call them.

Once the managers and guardians are in place, look if there are karmic objects in the room. For each object, pass it through a dark blue screen to know whether it's good or not. If it passes, integrate it into your tree; if it doesn't pass, throw it into the river. Repeat until all karmic objects are gone.

Then, look at the altar in the middle, and ask the tree at what % is your connection to God. Use the teal flame on the altar until it goes up to 100%, or whatever you're ready to take in.

When you're done, go back to the tree and swim in the river to refresh yourself.

That's it!

**Note: there is also a Lighthouse building further up that is just as important.**

## **Bonus: Core Intent Meditation**

The meditation on core intent is very similar. Ask the tree to bring you to the **House of the Soul**, slightly above the Temple of the Soul. The process is the same, except that there should be 5 manager around a crystal instead of 3 managers around an altar.

## God Connection Attunement

When you purchase a God Connection Attunement, I do it differently. Since the God connection energy is highly contagious, **I can use my own inner building to jump-start someone else's building**, just like you'd jump-start a car when the battery is dead. Doing so can however damage my own building so I need to restore it afterwards.

[You can purchase a God Connection Attunement here](#)

Furthermore, since results vary greatly from person to person and are hard to predict, you can get a free assessment where I will measure

- Current connection to God
- What % you're ready for it
- % benefits you'd get within 1 month, 2 months, 3 months, 6 months and a year

Just send me a quick message on Facebook and say "Can you do a God Connection Attunement assessment for me?" If your picture isn't on your profile, also attach a picture of yourself. That way I can do it quick for free.

**Note: I cannot replace the managers for you; this you must do on your own.**

## Frequently Asked Questions

Q: Will increasing it result in financial benefits?

A: If you sustain and cultivate it over a sustained period of time, and adapt your actions and behaviours over the course of 6+ months, it definitely will. Will it make money appear out of nowhere within a month without you taking responsibility for doing the work to generate that money? Probably not.

Q: What are the benefits for human consciousness overall?

A: Our planet is entering full-gear into ascension, which results in a tidewave of transitional chaos. This chaos is caused by the friction between God Consciousness and the people/environment. The sooner you connect with God, the easier it will be for you and those around you as you'll be on the good side of the wave. Plus, this energy is highly contagious and has a large area of effect.

Q: What happens if you do higher-level work without addressing lower-level issues?

A: It will cause unresolved lower-level issues to come up to the surface so they can be dealt with. It will also create movement that will get you out of the usual stagnant patterns. Thus, it won't bring peace and prosperity on its own but it will kick you into the right path.

Q: Are there risks to increasing the spiritual energy too much too fast?

A: Yes. A lot of people focus on self-improvement while maintaining the stability of the social matrix around them. If you increase your connection past a certain threshold, it can disrupt the social matrix and the illusions around you. This can bring chaos. In the current context of ascension, however, chaos is already happening, and **the risk of inaction is higher**. This may instead move you out of chaos, into the eye of the hurricane.
